FIND YOUR SIZE

① HEIGHT

Measure from crown to foot sole.

② CHEST

Place the tape measure around the widest part of your chest.
It is very important that the tape measure is placed in a horizontal position
all the way around the body.

③ PANT WAIST

Place the tape measure where the waistband of your jeans/pants is located
and measure around the body.

④ HIP

Place the tape measure around the widest part of your hip.
It is very important that the tape measure is placed in a horizontal position
all the way around the body.

INFO

At JACK & JONES we work with fit in a systematic way providing a clear overview of available fits and at the same time ensuring that we are flexible and can cover the current trend.

Here you can find an overview of key body measurements across the size range enabling our consumer to find the correct size.

On the following pages the fits are described for each product group.

All fits are made for the same body but will fit in different ways.

E.g. slim fit is for the boy who would like a narrow and fitted silhouette.

A different boy in the same size may prefer a more loose and casual fit which we can also provide.

For some product groups the fit depends on the material used.

E.g. the amount of padding in outerwear will affect the fit. More padding means less room for the body inside unless the shell is made bigger.

Across product categories we have made sure that the layers you wear will fit one on top of the other.

TANK TOP

Slender silhouette
with a body like the
slim tee

Comfortable fit

Deeper armhole

JUNIOR

TEE

Comfortable fit

Relaxed yet slender fit
